# WUXLY MOVEMENT

| | |
|---|---|
| **Company Introduction** | Wuxly Movement is a Canadian company renowned for its ethical, vegan, and sustainable outerwear. Established in 2015, the company is headquartered in Toronto, Canada. Wuxly specializes in **high-quality parkas** designed for extreme cold weather, utilizing innovative materials that align with their commitment to sustainability. The company targets environmentally conscious consumers who prioritize quality and ethical production practices. |
| **Major Competitors Information** | Wuxly Movement's major competitors in the sustainable outerwear market include:<br>**Patagonia:** Patagonia is renowned for its strong commitment to environmental sustainability and high-quality outdoor apparel. Their products are priced at a premium, targeting eco-conscious consumers willing to pay more for sustainable goods.<br>**Jack Wolfskin:** A German outdoor apparel brand focusing on functionality and high-quality materials. They have a strong presence in Europe, with mid-range prices appealing to both casual and serious outdoor enthusiasts.<br>**Hugo Boss:** A luxury fashion brand with a smaller focus on outdoor apparel but known for high-quality, stylish products. They target high-income consumers who prioritize brand prestige and style over functionality.<br>**Puma:** A global sportswear brand with a diverse product range. Puma offers products at various price points, targeting a broad audience from casual wearers to professional athletes.<br>**Vaude:** A German outdoor equipment and clothing company known for its commitment to sustainability and environmental protection. Vaude offers mid to high-range priced products, targeting environmentally conscious outdoor enthusiasts and active consumers. |

**Major Competitors Analysis**

| Major Competitors | Market share | Average Price of Winter Wear | Product Quality | Sales in Millions (CAD $) |
|---|---|---|---|---|
| Patagonia | 7% | $499.00 | Medium quality | 1,367.00 |
| Jack Wolfskin | 20% | $320.00 | High quality | 426.00 |
| Hugo Boss | 15% | $1200.00 | High quality | 6,321.00 |
| Puma | 7% | $220.00 | Mid-High quality | 2,631.00 |
| Vaude | 6% | $350.00 | Medium quality | 257.00 |
| Other Competitors | 45% | | | |

**Gaps in Existing Market Information**

The primary gap in the market is the lack of high-quality, sustainable outerwear that is both stylish and functional (Seely). Wuxly Movement can fill this gap by offering products that appeal to environmentally conscious consumers who do not want to compromise on performance or aesthetics.

**Market Profile:**
The German market shows a rising demand for ethical fashion, with consumers becoming more conscious of their environmental impact (Sustainability and Fashion in Germany Report 2023-2028)
The vegan market is expanding in Germany, driven by health awareness, animal welfare concerns, and environmental consciousness (Markets)
Germans perform thorough research before purchasing winter clothing, and they have high standards for quality, particularly for winter wear. They are willing to pay a premium for high-quality, durable winter clothing, showing that they value long-lasting products. Furthermore, there is a growing trend towards sustainability in their purchasing decisions, with an increasing number of consumers taking into account the environmental impact of their winter clothing choices (Inflation and Seasonal Retailing in Germany | Mintel)
German consumers generally have confidence in their economic prospects, which bodes well for retail businesses, especially those offering ethical and sustainable products (Sustainability megatrend – German consumers' expectations of the fashion industry)

**Reasons for Potential Market Penetration:**
**Product Differentiation:** Wuxly offers Canadian-made parkas and rainwear that provide warmth while maintaining sustainability and avoiding animal cruelty. Their products are made from recycled and plant-based materials, including recycled polyester shells, recycled nylon inners, and corn-based insulation (Baines)
**Quality:** Wuxly's products are designed for extreme weather conditions, with parkas rated for temperatures as low as -30°C/-22°F. They offer technical features such as adjustable drawcords, wire-brim hoods, backpack straps, and sealed seams to keep out snow and wind (Baines)
**Sustainability:** Wuxly's commitment to cruelty-free, sustainable products aligns with the growing demand for ethical fashion in Germany. Their use of recycled and bio-based insulation appeals to environmentally conscious consumers (Mahas)
**Brand Values:** Wuxly's focus on sustainability and ethics, including their non-leather recycled outerwear, resonates with the increasing consumer awareness in Germany. The company's B Corp certification further emphasizes its commitment to social and environmental performance (Mahas)
**Innovation:** Wuxly's use of military-grade and sustainable materials showcases their innovative approach to outerwear design (Baines)

By leveraging these strengths, Wuxly Movement can potentially penetrate the German market, appealing to consumers who are looking for high-quality, sustainable, and ethically produced outerwear that doesn't compromise on style or functionality.

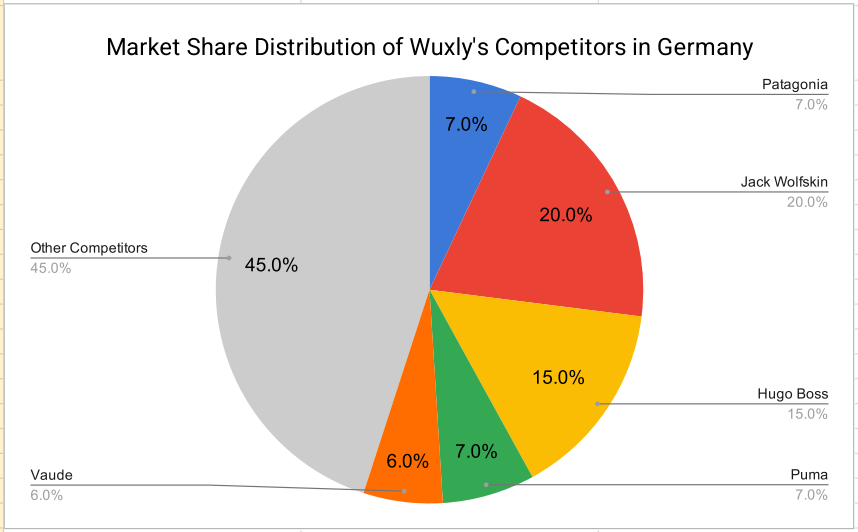

| | | |
|---|---|---|
| **Size of target market** | Wuxly Movement intends to export Parkas to the German market. It was evaluated to CAD $3,132,658,726 (3.132 Billion). Based on the production limit and our market positioning Targeted age group 25-65 years, This group makes up 53.8% of Germany's population, or about 44.76 million people. In Germany, the average household net-adjusted disposable income per capita is CAD 53,400 a year. | $3,132,658,726 |
| **Dollar value and percentage capture in 5 years** | $93,979,762 | **3.00%** |

| | 2024 | 2025 | 2026 | 2027 | 2028 | Total |
|---|---|---|---|---|---|---|
| **Projected percentage of annual market share** | 0.12% | 0.36% | 0.60% | 0.84% | 1.08% | 3.00% |
| **Projected annual sales revenue** | $3,759,200.00 | $11,277,600.00 | $18,796,000.00 | $26,314,290 | $33,832,671 | $93,979,762 |

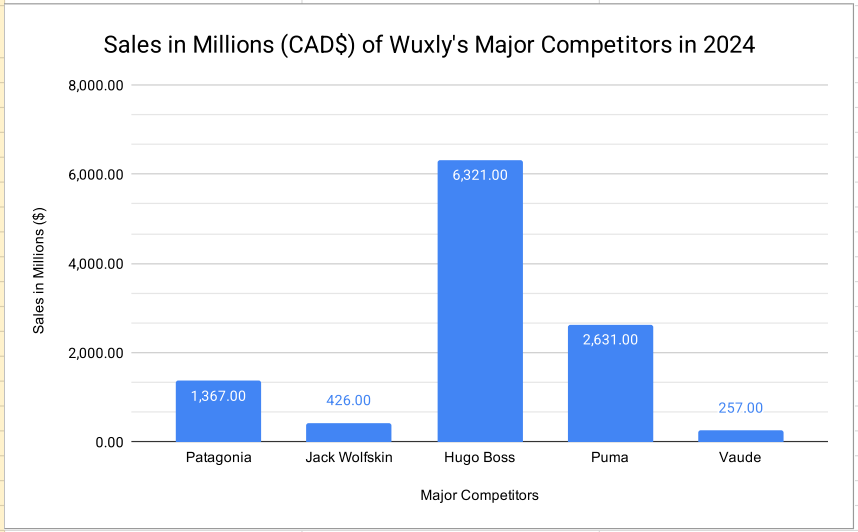

| **Number of Containers Shipped Annually** | 5 | 13 | 23 | 27 | 30 | 98 |
|---|---|---|---|---|---|---|

| | |
|---|---|
| Target Selling Price | $400.00 |
| Competitor price range | $220-$1200 |
| **Corporate Tax Rate** | 30% (TRADING ECONOMICS) |

**Bar Graph showing the Sales of Wuxly's Major Competitors (in millions CAD $)**

**Wuxly's Projected Annual Sales Revenue for the years 2024-2028**

## Assumptions

| | |
|---|---|
| 1 | As per our market positioning, Wuxly Movement (Parkas) would be evaluated at $3.132billion Canadian dollars. |
| 2 | We intend to capture a market share of 3.00% over the course of 5 years (2024-2028) |
| 3 | The projected sales revenue for 5 years (2024-2028) is $93,979,762. This amount is derived from calculating 3% of the market size of winter wear in Germany. This forecast is realistic because it is based on thorough market analysis and aligns with industry trends. The winter wear market in Germany is robust and growing, driven by consumer demand for high-quality, sustainable products like those offered by Wuxly. The global winter wear market was valued at USD 186,549.83 million in 2022 and is expected to grow at a CAGR of 3.61%, reaching USD 230,799.78 million by 2028 ("Winter Wear Market [2023-2030]"). Additionally, Wuxly's strong brand reputation, strategic marketing efforts, and partnerships with local retailers will enhance market penetration. The 3% market share is a conservative estimate, reflecting Wuxly's competitive edge and capacity to capture a significant portion of the market through its unique value proposition. |
| 4 | Competitors price range is derived through market analysis. |
| 5 | Wuxly's target selling price is $400 per unit. Competitor prices range from $220 to $1200, positioning Wuxly in the mid-to-high range of the market, in terms of price. |
| 6 | We estimate the number of containers to be shipped based on the Shipment Cost table, under Freight Budget. For 2024, we anticipate shipping 5 containers, increasing to 13 containers in 2025, 23 containers in 2026, 27 containers in 2027, and 30 containers in 2028. This increase is based on the assumption that there will be an increase of 15% and 10% for 2027 and 2028 respectively. |
